#### PROFESSIONAL HEALTHCARE HELPS FAMILIES IN NEED

Baltimore, MD – November 7th, 2011 As the holiday season fast approaches Professional Healthcare Resources has been looking at ways of assisting families struck by illness and whose financial situation has been adversely affected by the illness of one or more family members.

Casey Young, Director of Business Development in Professional Healthcare's Baltimore service area, has initiated a partnership with Allstate Insurance, Sterling Auto Body and Marathon of Miracles Network to help a family in need by donating a vehicle to the family. The nominated family has a history of helping others through similar donations until the mother was diagnosed with cancer six years ago. The father is out of work and picks up work when he is able to, and still take care of his wife during treatment, they have four children, three of which have special needs. They have almost been foreclosed on three times.

As such, All State will be donating a Ford Explorer that is a theft recovery. After being put through state safety inspections the vehicle will be donated. Professional Healthcare is also going to get wish lists from the children and seek local sponsors to fulfill those wishes.

Casey Young of Professional Healthcare said "It is times like this that make me proud to be part of the team at Professional Healthcare Resources. This just goes to show that we are fully a community based healthcare organization".

Eileen DeCesare, founder and President of Professional Healthcare remarked "I am so elated to lead a team of professionals that not only give exemplary care to our patients but go beyond to call of duty for people in need like this. I would also like to thank our partners for getting involved with us on this initiative".

If you or anyone you know is either in need of assistance or can offer donations, please contact Casey Young at 443-739-8380.

### **About Professional Healthcare Resources**

Founded in 1994 by a registered nurse, Professional Healthcare was built on the highest commitment to quality care. Our company allows patients to remain in the comfort of their home through a variety of services, which include: hospice care, private personal care givers, home care nursing and home therapies such as physical and occupational therapy. With seven locations serving the Greater DC Metropolitan area, Baltimore, Prince Georges County and Montgomery County Maryland; Northern Virginia, Richmond and Norfolk Virginia, we are the largest independent home health care provider in the area.
